

# FURCATION RECRUITMENT

## Role: AV Engineer

### Description

Furcation is looking to recruit volunteer AV engineers to join our well-established, friendly and welcoming team. The role will require you to use professional grade audio, lighting and video equipment to assist with the production of events hosted throughout the duration of the convention.

There will be large elements of manual labour involved within this position however accommodations can be made if you are unable to.

We will also train you in new, essential skills to do this role, so even if you do not entirely match the 'non-essential' requirements below, we would still like to hear from you if you have the drive to learn and apply new skills to the task!

### Requirements

- Communication skills are essential for this role, as the AV team work together as a team, everyone must be on the same page just in case of anything that occurs.
- Knowledge of BlackMagicDesign, OBS, Avolites and the Behringer/Midas X ecosystem would be advantageous but not essential as training will be provided
- Understanding of basic health and safety regulations
- Basic manual handling skills will be advantageous
- Previous experience working at other events or within a production environment is desirable but not essential
